An Introduction to Melbourne Pianos and Cliff Sanders:

After gaining my piano tuning skills at Brasted Brothers (Challen and Eavestaff piano manufacturers) in the late 1960s I went on to acquire the necessary experience to repair and recondition pianos both in the workshop and out in the field.

Over the years Melbourne Pianos have retailed new and reconditioned pianos in both North West and South East London and today I still retain many long standing clients throughout London and the South East.

Today I tailor my sales stock on a good selection of modern overstrung pianos rarely being over twenty five years in age, indeed many of my instruments look almost new, all have structural warranties and all are backed up with my personal after sales and tuning service.

In 2004 I became a Member of the Institute of Musical Instrument Technology and in 2009 I became a Member of the Piano Tuners Association in further recognition of my skills.
